Scientific and Methodological Services :

The Arab Researchers' Center

Starting from the Center's methodology to study the phenomenon of Salafi Jihad and Islamic militant groups, based on those groups' thinking in order to understand and explore them from the inside, we are pleased to announce introduction of our services to those who are interested in the phenomenon as follows :

- monitoring daily events related to the Salafi Jihadi and following-up its activities via specialized articles, and predictive studies that anticipate changes in the political, informational and ideological discourse of these groups.
- Preparation of studies and researches on various aspects of the phenomenon of Salafi Jihad in particular, and of Islamic militant groups in general, depending on an elite of professional researchers, according to the methodology described "**who are we.**"
- Willingness to consider completion of specialized studies in response to requests from those who are interested in the phenomenon, according to the terms of an agreement to be signed between the two parties.
- Translating the most important publications issued in Arabic about the phenomenon of Salafi Jihad, and to prepare summaries.
- organizing scientific symposia, workshops or supervising them by engaging specialists, experts, scholars and jurists who are in direct contact and knowledge of the phenomenon.
- Providing methodological and cognitive evaluation of relevant studies and researches whether they are university thesis or issued by the researchers and research centers, as well as counseling services, advice and documentation in scientific research. In addition we are ready to cooperate with scientific institutions and research centers.
- Making available a comprehensive and ongoing database about activities of the Salafi Jihad figures, : audio-visual and written.

	<p>The non-Muslim Western researchers often suffer from misunderstanding of the literature and insight of Salafi-Jihadest leaders. This phenomenon has risen due to deep lack of knowledge of bases of Islam, and this would lead to outputs that don't agree with the given data.</p> <p>We are at The Arab Researcher`s Center sense our commitment in this regard and present our contributions to assist such researchers to grasp a better and more precise idea to the contents of all Jihadest Islamic Movements in general, and the Salafi-Jihadest in particular. We preferred to put these fine books to explain Islam in English language in order to become a useful reference to understand some expressions and words that they may encounter in the literature.</p> <p style="text-align: center;">Free Download</p>
